

# Instant Pot® IP-LUX Series

## 6-in-1 Programmable Pressure Cooker, 6Qt/1000W, Latest 3rd Generation Technology, Stainless Steel Cooking Pot and Exterior

*If you live a fast-paced, health-oriented and green-conscious life style, Instant Pot is designed specifically for you.*

Instant Pot is an intelligent Electric Pressure Cooker designed by Canadians with the objectives of being *Safe, Convenient and Dependable*. It speeds up cooking by 2~6 times using up to 70% less energy, and, above all, produces nutritious healthy food in a convenient and consistent fashion.

### Convenience, Simple as Pressing a Button

Instant Pot IP-LUX is a 6-in-1 programmable cooker combining the functions of a pressure cooker, sauté/browning, slow cooker, rice cooker, steamer and warmer. Using the 10 built-in smart programs (Bean/Chili, Meat/Stew, Soup, Sauté, Poultry, Steam, Congee, Multigrain, Rice and Slow Cook), your favorite dishes are within the reach of pressing a button. Green peas, sweat corn and baby carrots can be steamed in 2 or 3 minutes, fresh or frozen. To make mashed potato, don't boil potatoes in water for 50 minutes; steam

them in Instant Pot for just 12 minutes. An entrée of chilli or Irish stew can be done within an hour, without you watching over it.

To tailor for varying tastes and food conditions, the programs come with 3 adjustable modes. Special features include 3 temperatures in Sauté for browning, simmering or thickening, and 3 temperatures in Slow Cook to complete the tasks of a common slow cooker. Most traditional, modern and international recipes can be easily adapted for Instant Pot.

A 24-hour timer allows for delayed cooking. Automatic keep-warm holds the temperature of the food until you are ready to eat. It works as a perfect porridge maker allowing you wake up with a fresh made porridge.

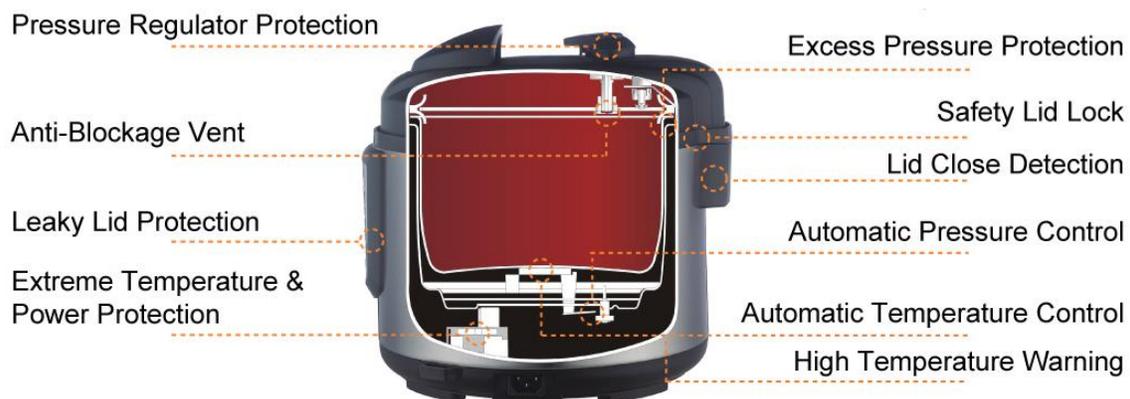

Instant Pot generates almost no noise and leaks no steam. It traps all the aromas in the food. It cooks food without heating up the surroundings. It is truly a kitchen-friendly appliance. The 3-ply bottom stainless steel inner pot is extremely durable and leaves no health concerns of non-stick coating residual. The brushed stainless steel exterior is finger print resistant. Its elegant and durable industrial design makes it easy to clean and pleasurable to use for the years to come.

## Dependable Consistent Results

Instant Pot IP-LUX60 uses the latest 3rd generation technology with an embedded microprocessor. During a cooking process, the microprocessor monitors the pressure and temperature, keeps time, and adjusts heating intensity and duration. Even the volume of food is also taken into consideration. The cooking programs have been lab-tested hundreds of times for optimal effect. These greatly improve cooking result and maintain consistence.

## Safety without Compromise

Instant Pot was carefully designed to eliminate many common errors from causing harm or spoiling food. It passed the stringent UL & ULC certification giving you uncompromised safety and peace of mind. Instant Pot protects you with **10 proven safety mechanisms and patented technologies.**

1. Safety Lid Lock prevents accidental opening while the cooker is pressurized
2. Using a magnetic sensor, Lid Close Detection monitors whether the lid is properly closed

3. Pressure Regulator ensures working pressure to be under the safety limit of 15.23psi (105kpa)
4. Smart detection of leaky lid (e.g. steam release is at open position)
5. Automatic Pressure Controller keeps pressure always in the safe range
6. Excess Pressure Protection releases excess pressure into internal chamber in the dangerous situation
7. Automatic Temperature Control regulates temperature based on the type of food being cooked
8. High Temperature monitoring avoids burning food
9. Anti-blockage Vent design minimizes food residue blocking the vent
10. Electrical current and temperature fuse cuts off power if the current or internal temperature exceeds safety limits

## Features

- **Completely redesigned user interface providing the most convenience and ease of use**
- **3-ply bottom stainless steel cooking pot** for durability
- Finger-print resistant brushed stainless steel exterior
- **6-in-1 Multi-Functional Cooker** (Pressure cooker, Slow cooker, Rice cooker, Steamer, Sauté & Warmer)
- **10 Proven Safety Mechanisms, UL and ULC certified**
- **10 Micro-Processor controlled programs:** Meat/Stew, Soup, Sauté, Poultry, Bean/Chili, Congee, Steam, Multigrain, Rice and Slow Cook
- **3 Adjustable Modes for most functions. 3 Sauté temperature and 3 Slow Cook temperatures**
- **Delay Cooking Timer:** Up to 24 hours
- 1000W heating element for faster cooking
- Automatic Keep-warm
- Manual setting: Up to 120 minute cook time
- Reduced cooking time by up to 70%
- Highly energy efficient saving up to 70% of energy
- Accessories included: stainless steel steam rack, rice paddle, soup spoon and measuring cup
- Instructions, recipes and cooking time table in English, Spanish, French and Chinese are included
- IP-LUX series come with two models: IP-LUX60 has a 6qt cooking pot and a 1000W heating element; IP-LUX50 has a 5qt cooking pot and a 900W heating element
